

M.K. Pentecost Ecology Fund Grant Application Guidelines

Mission Statement and Beliefs:

The mission of the M.K. Pentecost Ecology Fund Committee is to promote and support ecological stewardship of natural resources. We believe that the church has a responsibility for protecting God's creation, seeking environmental justice, encouraging conservation, promoting education, and restoring eco-systems.

Eligible Applicants:

Savannah Presbytery's M. K. Pentecost Ecology Fund grants may be awarded to projects that support the presbytery's ministry of environmental justice and ecological stewardship of natural resources. The funds are to be used for promoting the support of conservation efforts, for education and studies in key environmental issues of endangered ecosystems, for promoting the protection of wetlands, for controlling erosion or other destructive forces, for restricting activities in construction which damage the environment, for eliminating the useless destruction of marine life and/or wild life, for maintaining beach areas for responsible relaxation and refreshment, and for controlling water quality. In general these funds are to be used for the restoration and preservation of ecosystems so that the church's ministry and response to ecological justice and stewardship of natural resources can be maintained.

Dates and Deadlines:

Applications and all supporting documents must be received *no later* than **April 1, 2010**.

The M. K. Pentecost Ecology Fund Committee meets in May to review applications and make grant awards.

The committee meets again in December to review reporting documents from grant recipients.

An organization receiving an award from our fund two consecutive years will be asked to abstain for one year before reapplying.
