woodburnaia@yahoo.com

First Presbyterian Church, Savannah’s youth created a “green roof” garden to help cool the building and retain storm waters. This project raised awareness in the congregation and the community about this new green “technology.”

Contact: Rev. Stephen Williams
stephen@savannahfpc.org

Wilmington Island, White Bluff, and St. Simons Island Presbyterian Churches all included recycling projects in their Go Green! grants. St. Simon’s included a trip to the local recycling facility and Wilmington Island included a trash pickup day.
